

Collaboration keeps the world in motion

We introduce, guide & drive operational transformation for field-service industries.

Collabaro adds value to field-service organisations by offering business improvement advice as well as the tools to **work smarter not harder**. Collabaro ensures seamless data flow from field to desk, minimising back office administration in the process.

Our story,

Collabaro evolved from a conversation between two friends. One with a **problem** and one with a **solution**.

Our instinct was to listen, diagnose the problem and ultimately create a uniquely targeted software designed with our end users in mind. We've followed the same methodology in every development of the product and our services since.

You speak, we listen

We are experts in driving digital transformation because we too are primed to respond and adapt to ever changing global landscapes. With attention and rigour we have worked closely with our clients to continuously explore how Collabaro can further support them.

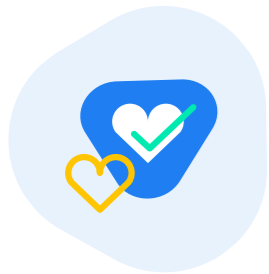

Your purpose is ours

Through our dedication Collabaro has become the robust, holistic and agile service that field-service industries now understand as essential to their longevity. Collabaro's operational transformation journey is designed to support our clients in achieving their goals to provide more reliable, sustainable and efficient services.

Our values see us through,

We're **trustworthy**

It can be hard to know whether to invest in change when lacking clarity. We offer live and virtual demo's as well as business improvement analysis before you make any commitments.

We have **integrity**

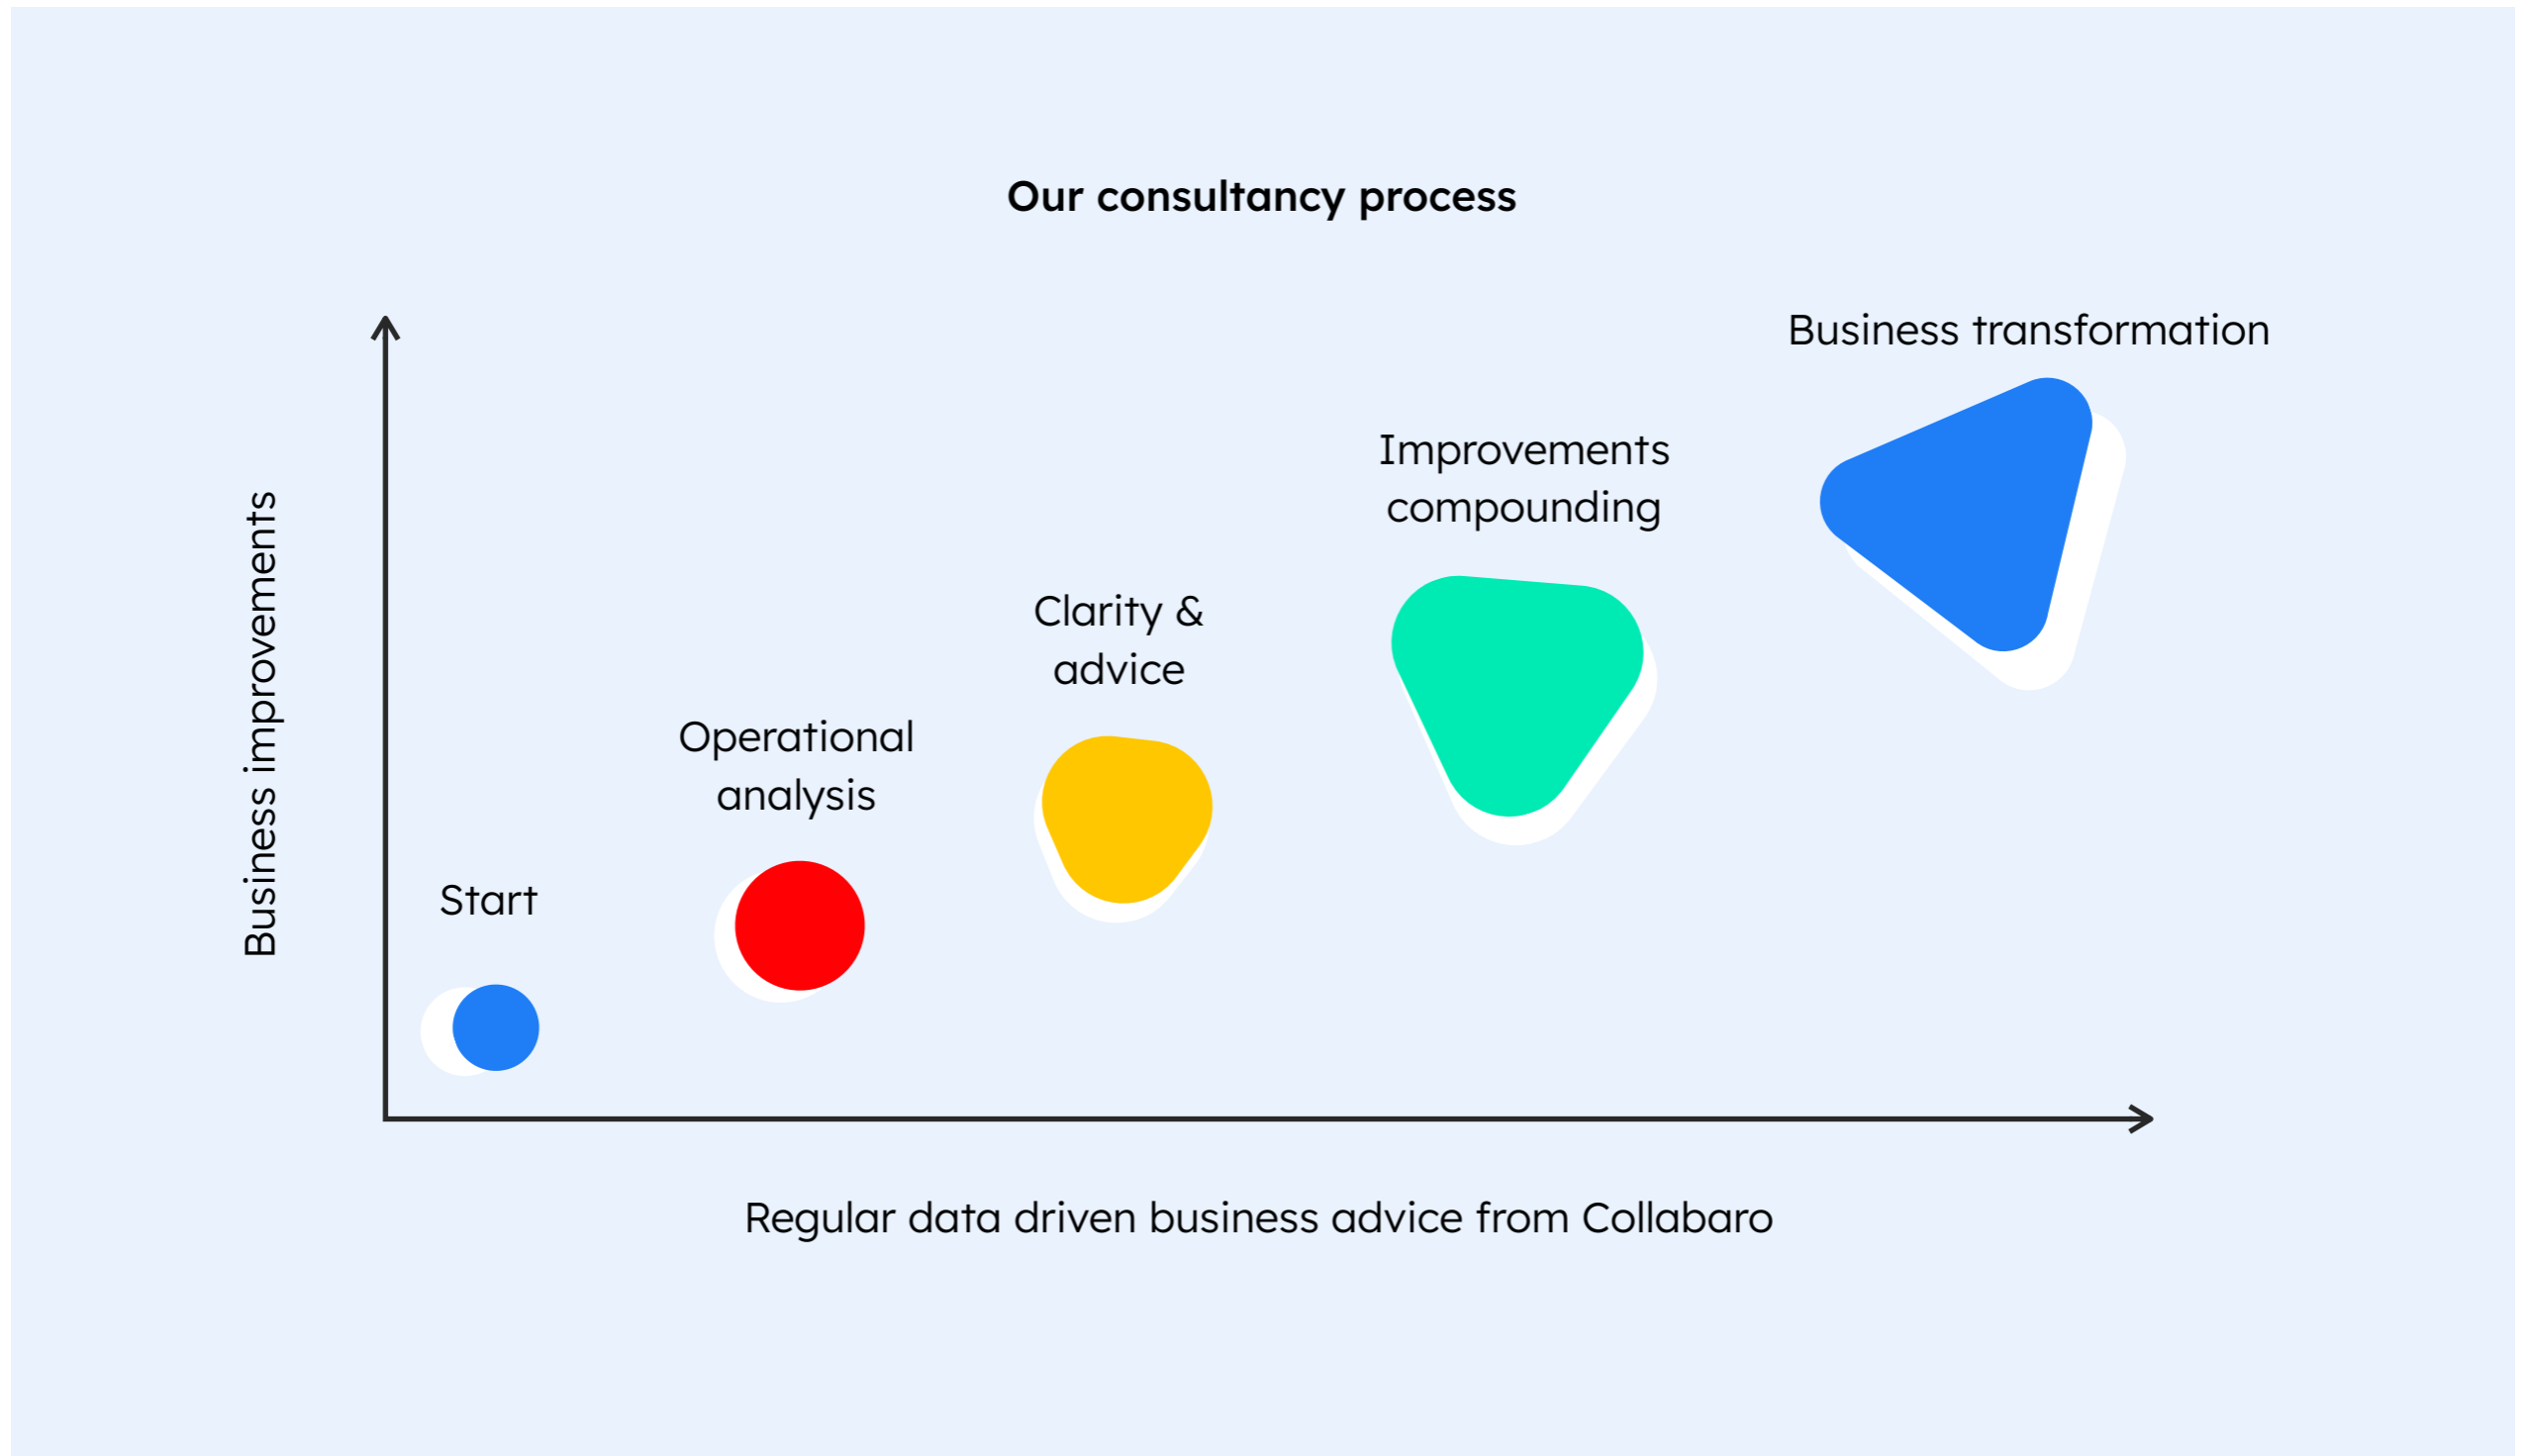

Our business is backed by evidence and experience. We take the time to understand your unique needs, using our combined expertise and knowledge to continuously deliver on our word.

We're **dedicated**

We own your problem, therefore if we say we can, we will. Our multi-disciplinary team create the resilient, dynamic and reliable environment needed to provide the service of excellence we proudly offer.

We provide strategic business insights,

We help you see more clearly,

Gain a fresh perspective on your operational efficiency

We're not afraid to challenge the status quo. We emphasise existing business analysis, modification of current processes and shifting attitudes towards significant operational improvements.

Gain true insight into your business needs and direction

We listen carefully and analyse your needs, objectives and data before proposing a tailored solution. This approach is proven to us over 25 years, enabling both sides to make better, more informed decisions.

Benefit from measurable value using data-driven decisions

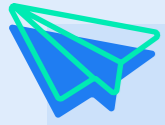

In a world where business models and market forces are constantly changing, we help you identify what success looks like for you. The results we aim towards give you a clear and measurable competitive advantage.

Experience Collabaro as a trusted partnership

Our aim is to provide valued professional services, bespoke business solutions and be a trusted partner. Our goal is supporting your growing business requirements both tomorrow and into the future.

Collabaro powers your productivity

Improve Contract Margins with Collabaro Enterprise

Understand the real cost of operating your contracts. Jobs are automatically costed for accurate margin calculations, removing annual-view guesswork in a simpler, quicker contract renewal process.

Lower your cost per job using the timesheets feature

Technician time is prioritised with a daily, detailed breakdown of timesheets that are helpfully pre-populated with activity such as jobs, tasks and absences, leaving only the blanks to completed.

Share insights with customers using the online portal

Keep customers better informed by sharing insights with them through the Collabaro online portal. Customers can access Job counts, visit status, SLA performance data, downloadable job reports and other KPI's.

Get dedicated training and support from our expert team

We are passionate about ensuring you get the proper support when you need it most with a dedicated team of support and training professionals on hand to talk you through each step of your journey.

Get ahead in your field,

Collabaro's success spans many industries including wind, rail & fire & security.

Regardless of sector our product customers have one thing in common, the need to collate and communicate massive volumes of inspection and repair data, including high-resolution images. Not only can Collabaro deliver on this need we can do it all in real-time. Our customers are able to enhance productivity, enhance profits and enhance their own reputations.

Transform your future workflow!

We are excited by the breadth of positive impact Collabaro's services has across a variety of industries and always look forward to working with new customers to see their goals achieved.

If you are ready to take the first step on your journey to operational transformation then simply get in touch!
